

It is an indisputable fact that Atlanta is full of beautiful homes, many of which have incredible features and amenities and have been built by well-known architects and design firms. Nestled on a riverfront property along the Chattahoochee in metro Atlanta is one particularly special home. What makes it so special? The 11,000 square foot home has five full bedroom suites, 8,000 bottle dual wine cellars, and a domed entryway with stained glass ceiling. It has cherry floors, steam units in two baths, media room, full bar, exercise room, library, and a luxurious swimming pool. It is, by all regards, a fantastic house. However, what makes this home truly spectacular is something intangible that one can sense in every single room – the incredible design and workmanship of the house. Every builder of high-end homes in Atlanta will tell you that their designs and construction are top-notch. Many are right. However, the firm that designed and built this particular home, Handcrafted Homes, Inc. of Roswell, GA, can actually prove that its work is outstanding. So outstanding, in fact, that it has garnered national recognition. Handcrafted Homes, Inc. has just been the remodeling industry's top honor – The 2007 National Association of the Remodeling Industry's Contractor of the Year for Entire House over \$1,000,000. Although primarily a design/renovate/build firm, Handcrafted Homes, Inc. can use another designer's plans to execute incredible workmanship in construction. Attention to every detail is the pride and reputation of the firm. Every project – from remodeling a single bathroom to designing and building an entire home from the ground up – is a treasured project for Handcrafted Homes, Inc. The firm was founded in 1976 by Judy Mozen, who graduated from Agnes Scott College in Atlanta, GA. As a female in the building industry with 31 years of experience, Judy has blazed trails by gaining significant recognition for her firm's work. In addition to the NARI 2007 National Contractor of the Year, numerous awards have been won by Handcrafted Homes to date, including: Atlanta Homes & Lifestyle's Bath of the Year, Greater Atlanta Homebuilders' Association Gold and Silver Medals for Professionalism, and the NARI Regional Contractor of the Year. Judy, along with her husband and partner, Randy Urquhart, and the rest of the Handcrafted Homes team have a great deal to be proud of.

"The NARI national award is just incredible. We feel very fortunate to be working with clients who appreciate our commitment to detail not only in the finished product, but in the way we execute every element of our work from conception to finished home. It's just wonderful to be recognized by NARI on a national level for our work and we know that everyone we work with feels pride in this accomplishment."
